Key Experiences

Hamish has over 20 years' experience as a senior project manager, planner, Project Controls and PMO manager and project specialist across an extensive range of construction and technology projects spanning both the private and public sectors. Hamish possesses the rare ability to apply logic and creativity to his methods, combining his breadth of service and sector experience.

Hamish became a director of TBH in 2013.

He is an excellent communicator with a proven track record in developing strong client relationships. Hamish is a highly effective multidisciplinary project team leader working from project inception, through design phase planning, procurement and construction to commissioning, using a range of procurement methods and contract types.

Working extensively in both the public and private sectors of Australia and the UK, Hamish has developed an impressive skill set achieving an enviable track record of successful projects in the commercial, residential, leisure, health, engineering, utilities (power and water), retail, financial, ICT and heritage sectors.

Highlights of Hamish's career to date include:

- Court appointed expert in both Project Management and Constructability/Programming, including giving evidence .
- Senior Project Manager on the £40m South Crescent development for the City of London
- PMO / Project Controls Manager on the \$500m Smart Grid program for Ausgrid
- Senior Planner on the £2b redevelopment of Elephant & Castle, London

Key Skills
