

Brad Giller

Director

Areas of Expertise	Planning & Controls, Claims & Dispute Resolution, Project Management
Industries	Building Construction, ICT, Road, Rail
Qualifications	Bachelor of Applied Science – Construction Management (Hons)
Memberships	Member, Australian Institute of Building

Key Experiences

Brad joined TBH in 2003 and became a director in 2010. He has over 22 years' experience in the construction industry. Since joining TBH, Brad has developed extensive experience in planning and control on a range of projects and has applied these skills in construction and ICT project environments.

Brad has been responsible for leading multi-disciplinary project team workshops to facilitate development of integrated design, procurement, construction, fitout and commissioning programmes. Brad's background in construction engineering informs his project planning with a real-life appreciation of project methodology and construction techniques.

Brad has lectured in programming at University of NSW for Master of Construction Project Management. He has also provided programming training for a number of TBH clients.

Brad has prepared Expert advice and reports for a number of construction disputes.

Brad's work at TBH includes:

Time Control and Advice

- Preparation of design, procurement and construction programmes, including all phases of project life cycle in the private and public sector
- Development and programming of detailed construction methodologies (for tender, contract and target programmes)
- Materials handling analysis
- Assessment of project manpower requirements
- Monitoring and reporting on progress throughout the design, procurement and construction process
- Integration of multiple project schedules into coordinated programs of work
- Schedule analysis and review

Dispute Resolution Advice

- Provision of advice in relation to extension of time claims
- Expert reports for time related legal disputes

Project Management Advice

- Provision of advice to various clients in areas such as project delivery systems, project management procedures, resource requirements and staging advice
- Development and implementation of project management systems, procedures and manuals for the construction and property Industry

Project Management Systems and Procedures

- Development and implementation of project management systems, procedures and manuals for the construction and property Industry.
