Key Experiences

Colin is a chartered quantity surveyor and project manager with extensive experience in building and engineering sectors representing both clients and contractors at senior management level.

Colin has provided detailed procurement, contractual and risk advice to clients. He has represented clients in matters of quantum, project and time management, litigation and arbitration support as well as the preparation, defence and negotiation of contractual claims. He has testified in court as an expert witness.

Colin's previous employment includes country director in Australia for Hill International from 2006 until 2011. He was responsible for the administration of the office including P&L and the day to day management of a multi-disciplinary team of consultants providing construction consultancy services.

Prior to this (2001 - 2006) Colin was a director of Faithful and Gould/ Atkins in Scotland with responsibility for quantity surveying and project management functions and for managing 80 staff in three offices and ensuring continued development and profitability of the business.

Colin has significant expertise in the following areas of service delivery:

Cost Planning and Management

- Preparation of feasibility studies
- Preparation of cost plans at project and program level, monitoring and updating during the design development phase
- Benchmarking
- Management of cost through the contract delivery phase including change management
- Preparation and agreement of final accounts
- Project controls including earned value analysis

Project Management

- Formulation of brief
- Value management
- Consultant management
- Procurement and contract management
- Contract administration
- Project close out

Consultancy Advice

- Procurement and contractual advice
- Claims avoidance advice
- Claims management
- Litigation and arbitration support
- Expert witness
- Technical advisory
- Funders due diligence
