Key Experiences

Travis has over 18 years' international experience in Portfolio, Program and Project management. He has worked in Australia and internationally in the public, private and non-profit sectors and is able to draw on best-practice approaches from these sectors to achieve outcomes with maximum stakeholder value.

Travis possesses strong analytical and leadership skills and the ability to apply appropriate solutions to complex problems, throughout the lifecycle. His skills range from devising organisational strategies through to planning, delivery and evaluation of programs and projects. He draws on his diverse experience in complex stakeholder environments, to offer effective solutions to a broad range of clients.

Travis's work includes:

Strategic Portfolio, Program and Project Planning and Management

- Application of portfolio, program and project (P30) management principles to achieve business, social and economic development outcomes
- Strategic business analysis and program evaluation
- Collaborative decision-making and design utilising benefits and investment management techniques
- Portfolio Prioritisation
- Master Planning for complex, interrelated Programs and Projects
- Performance and outcome monitoring and evaluation
- Portfolio Resource and Demand Management
- Program risk and schedule integration
- PMO Design, Road mapping and implementation
- Training, facilitation and capability development (coaching)
- Establishing and maintaining strategic client partnerships with government, private sector and international agencies
- Managing multiple teams of consultants to deliver quality outcomes within time, budget and scope.
